Subject: GCS Minerva Submission Update

Ian and Corey,

Earlier today, GCS provided updates in the GSDT and the OneDrive for Project Minerva. The update is primarily related to Financial Assurance, specifically a new letter from our surety provider Sompco (Attachment C) which provides further details on the surety bond that will serve as financial assurance for Project Minerva. Please see Update Walkthrough in the "C.1. Welcome" folder for more details.

In addition, GCS has uploaded additional references to the AoR & CAP report. To clarify there are not any new references in the AoR report, GCS is providing digital copies of already referenced documents. We moved the previous version of the references folder from "B.12.1 References" to Archive and uploaded the complete list to the current AoR CAP folder (v4). There are several references for which GCS only has physical copies. We are happy to provide these to Region 6 and arrange for them to be shipped. Please let us know Ian if best to address to your attention.

Please let us know if you have any questions. All the best.
